## Meeting Report for February

February's meeting discussed three topics.....

- The first was the procurement and awarding of competition trophies. The meeting concensus was that first place trophies would only be awarded when a class had three or more competitors, second place if the class had six or more and third place (if awarded at all) if there were nine or more competitors.
- The second was winch lines and in particular the condition of the retrievers.
- The third was the rules for the Nostalgia rules competition to be held next month (see flyer in this issue). Much of the discussion centered around whether we should exclude or include foam wings. In the event the organizers decided that they only wanted built-up wings.

Bob Swet (the Treasurer) reported that we had \$605 in the bank.

## March's Competition

March's competition was held in almost perfect conditions. The sky was clear, the day warm, the wind was light and tending to be from the East and lift was generally good. The ground was still soggy underfoot from all of the February rains, and this dampness was exaggerated by the unmown grass.

The competition had three rounds - 3, 5 and 7 minutes - with time counting for 960 points and landings 40.

Name	Glider	R1			R2			R3			Total	Nor- mal	Year
