

TOSSUP 99

November's Contest

This contest was comparatively well attended for a late in the year club contest. It was in a 21 minute 'add-em-up' format with no flights longer than 9 minutes and 100 point landings.

The weather that morning started out with a very

deep marine layer but this started to dissipate to good, if somewhat hazy, sunshine as the contest started. Winds were calm to light and lift was quite variable resulting in a large spread of times for individual rounds. (This didn't have much effect on the overall scores because of the contest's add-em-up format.)

| NAME | CLASS | Glider | Round 1 | | | Round 2 | | | Round 3 | | | Penalty | TOTAL | Normalized | Yearly Flier |

Annual General Meeting

Our Annual General Meeting will be held on Wednesday, November 24th. (that's our next club meeting). During this meeting we'll be selecting club officers (nominations are in the meeting report on the next page) and fixing contest dates, formats and CDs for next year.

TOSS's Monthly Meeting...

...had three items of business. The most important was the nomination of club officers for next year. The nominations so far are:-

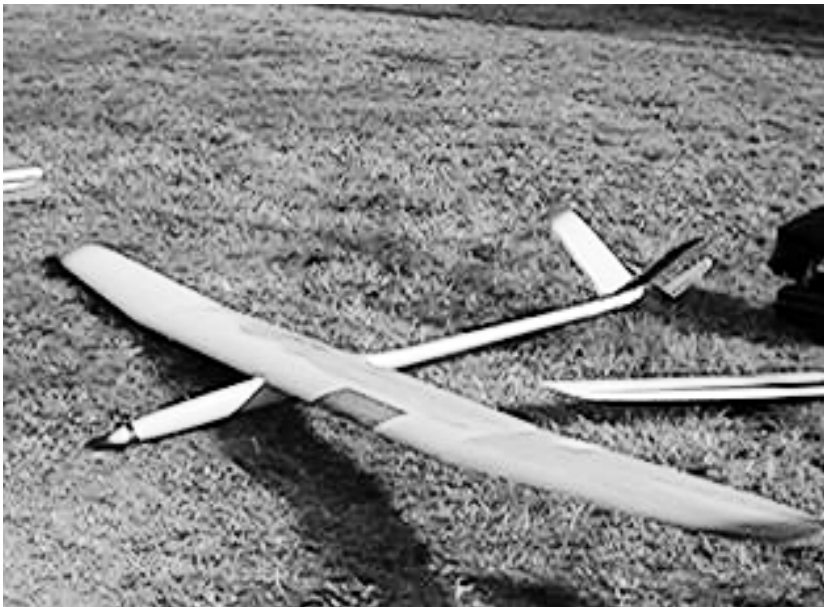

President - Edgar Weisman
Vice President - Mike Stern
Treasurer - Bob Swet
Secretary - Charle Babcock
Contest Saftey Officer - Don Northern
Newsletter Editor - Martin Usher

These positions will be ratified at the AGM at the end of this month unless there's additional candidates.

Bob Swet, our treasurer, reported that we have \$1100 in the bank.

We discussed the yearly flier contest to figure out what we're going to do with it next year. We decided to use the best 7 scores to decide the winner and to give that winner a year's membership and \$100 cash.

We welcomed a new face at this meeting, John Gonzales. John's interests are scale and he's been flying at a number of interesting sites in the area, sites that we hitherto hadn't realized could be flown by anything other than a fairly robust foamie. He's interested in practising launching from a winch. We look forward to seeing his planes at Redwood (and he's probably going to enjoy landing them on grass for a change!).

This plane caught my eye at the club contest.

Its called a "Hades". It has a RG15 airfoil and a flying weight of 88 ozs. The dark patch on the wing is an area that's been repaired, showing the wing to be carbon fiber over foam.

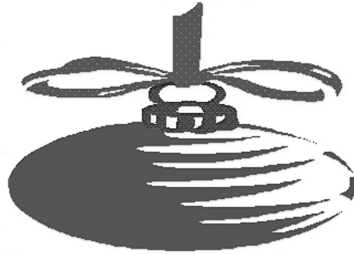

Its apparently a high performance slope plane that's had a tow hook attached to for flat land launches. Despite being no floater it still made good flight and landing times in the contest.

Pasadena Soaring Society Presents
The SC2

Great Pumpkin Contest

~~October 31st 1999~~

December 5th., 1999

ROUND 1: 6 MINUTE PRECISION DURATION. SCORED 950 / 50
